In our Tiny Tot program your child will be learning social skills through play, along with continuing to grow their fine and gross motor skills. Play is very crucial to your child's social and emotional development. Each day your child will engage incircle time, play, snack, art/craft, a chance to run and explore in our gym, sing/dance, and story time. Along with some fun and engaging activities that your child will love. We have an amazing teacher and aide that will absolutely love, adore, and keep your child safe!
